

The X rod's all-new fast action taper built with our KonneticHD Technology delivers greater blank recovery and a crisper tip stop - creating tighter, more efficient loops throughout all ranges of casting styles. This taper allows you to dig deeper into the rod and access the lower sections, shifting power closer to the angler. Decreased lateral and medial movement and vibrations in the blank result in a more accurate and efficient presentation, resulting in a performance driven, forgiving fast action blank - refining the synergy between angler, rod, line, and fly.

The small water DART features a short-range fast action for chasing trout in still and clear water, close quarters, or obstacle-ridden streamsides. Specifically designed to drive precise loops under branches of willow while providing delicate presentations and delightful feedback to the angler. The KonneticHD materials combined with the performance-friendly fast action gives fishermen the ultimate competitive advantage against highly selective trout. The 0-4wt models at 7' 6" provide the backbone of this family with ultra-light performance, while the shorter model in 3wt provides a specialty tool to the angler looking for accuracy in extremely confined areas. The lightest, most precise casting small water rod ever made, the DART is destined to become a cherished tool in the trout fisherman's quiver for years to come.

The most demanding conditions require a different kind of tool. Strong head wind? Fish at distance? Bulky rigs? Heavy sink-tips? The IGNITER is tuned to handle the most technical of conditions. Not a rod for the everyday angler the IGNITER is equipped with a high line-speed taper to carry large amounts of line at distance with wind-cutting performance. Perfect for streamer fishing with heavy sink-tips or covering big water when conditions turn south.

If you bring the will the IGNITER will supply the way.

Chipotle Finish

Heavy fishing pressure pushes trout out of their soft glides into faster, choppy runs protected by rocks and structure. Europeans developed a style of direct line nymphing using multiple, weighted flies fished under tension on light tippets to systematically dissect these micro-environments, catching fish when no other method could. The new ESN Series with Konnetic technology makes for an extremely light blank, ideal for the repetitive casts this precision method requires. Its responsive, supple tip telegraphs every boulder, bump and bite, giving you ultimate control.

MODEL	LENGTH	LINE	BUTT SIZE	TIP SIZE	WEIGHT (OZ)	PRICE
ESN 2100-4	10' 0"	2	0.325	3.5	1.10	\$575.00

Gloss Black Finish

Just like you wouldn't pull out your driver when you need your 7 iron, the MOD is optimized for the distances and scenarios most often encountered by the trout angler. Thoughtfully crafted with contemporary line designs, fly patterns, and angling styles in mind, the MOD is a modern interpretation of a moderate action specific for trout fisheries. Designed between the deep loading CIRCA and fast action ONE, the MOD excels at measured distances to the short game, delivering delicate presentations with pin-point accuracy. Designed and handcrafted on Bainbridge Island, the MOD features all the lightweight, strength, responsiveness, and accuracy benefits of our proprietary Konnetic Technology®.

SERIOUS FLY RODS BUILT TO HUNT GIANT SWIMMING CARNIVORES

In recent years, there has been a significant rise in the popularity of pike and musky fly fishing. Pike fishing has especially grown in European and Scandinavian fisheries. Based on this demand and the success of the 7'11" BASS II family, Sage is introducing two new rods targeted specifically at pike and musky fishing. Based on the fast action, powerful BASS II rods, the PIKE and MUSKY rods come in a 9' length to better handle heavy fly lines and wind-resistant flies that are used to target these species.

MODEL	LENGTH	LINE	BUTT SIZE	TIP SIZE	WEIGHT (OZ)	PRICE
Pike Blank 4-Piece	9'0"	10	0.394	5.0	2.00	\$450.00
Musky Blank 4-Piece	9'0"	11	0.425	5.0	2.25	\$450.00

OFFERING SALTWATER ANGLERS PRECISION AND POWER WITH THE SALT

For the incredibly diverse range of casting demands placed on the saltwater angler, the accuracy, strength and precision of Konnetic Technology® has enabled us to craft a fly rod like no other saltwater rod before it. The SALT is a fast loading, high line-speed salt-action rod that gives you the confidence to know that you're ready for anything the salt can throw at you. Sight casting smaller flies out to nervous bones finning along the flat in only four inches of water? Quickly and precisely drop the fly where they'll see it without spooking. Casting to tarpon that appear suddenly in a gusting wind? The SALT's decidedly robust salt-action taper gives you the power to maximize today's heavier fly lines to deliver flies of all sizes at all ranges with effortless precision.

MODEL	LENGTH	LINE	BUTT	TIP	WEIGHT (OZ)	PRICE
690-4 SALT HD	9' 0"	6	0.348	4.5	1.75	\$625.00

Squid Ink Finish

When you're casting big flies onto weed mats to trigger attacks from the bucketmouths below, you're in for a day of spectacular strikes and big memories—maybe even a tournament title. The Bass II blanks have been upgraded for faster line speed to carry big, bulky flies straight to their target—everything from explosive smallmouth in their river lairs, to voracious snook and tarpon stealthfully pulled from the mangroves on your kayak. The new Peacock model joins this lineup, a true heavyweight ready to go toe-to-toe with giant Peacock Bass.

MODEL	LENGTH	LINE	BUTT SIZE	TIP SIZE	WEIGHT (OZ)	PRICE

SAGE GEAR

Sage gear blanks are once again available! This series has been extensively tested and new designs added to the already famous line-up. The old favourites are back along with some new models to round out the series. This series has a blank for every steelhead and salmon fishing application; from light freshwater to saltwater downrigger and mooching to heavy bar blanks.
