

Brass Ferrules Chrome Plated

American Tackle Company ferrules are made from the highest quality brass and are chrome plated. The FRR ferrules are reinforced.

- Available in reinforced and non-reinforced models
- Brass constructed two piece ferrules
- All sizes are in mm
- Chrome plated

FRR-17.0 TO FRR-20.0 \$13.75

MODEL FA - GA

GRAPHITE COLORED FOAM ARBORS

- Made of polyurethane, our graphite colored arbors are lighter than cork, but unlike cork or tape bushings, are much harder. They give the rod maximum sensitivity by transmitting the strike signal and lure action from the blank through the reel seat, to the fisherman's hands. Porous surface enhances glue bonding.
- GA arbors include glue channels on the outside surfaces and are less likely to become loose between the blank and reel seat after continuous use.
- Standard I.D. can be reamed to fit a wide array of blank diameters.
- Length: FA = 5.75" (146 mm), GA = 1" (25.4 mm)

DESCRIPTION

The OmniArbor® (Patent Pending) is a new product designed to easily and effectively mount reel seats to rod blanks. Its goof proof features, and low price results in superior reel seat mounting, saving builders time and money.

FEATURES

- Custom Sized to fit reel seats.
- Self Centering
- Glue Dam
- Thermoplastic Resin

BENEFITS

- Faster Assembly
- Water Proof
- Ease of Use
- Adjusts to Multiple Sized Blanks

APPLICATION

- The four models of OmniArbor® are sized to match the I.D of the 16, 17, 18 and 20mm reel seats.
- OmniArbor automatically adjusts to a wide variation of blank butt diameters.
- The time to install an OmniArbor® is significantly less than boring and installing foam arbors or building up a tape mount.
- The FINS inside the OmniArbor® progressively fold down against the inner wall during installation.
- Simply slide the OmniArbor® on to the correct location on the blank creating a centered mount for the reel seat.
- Unlike masking tape, TPR (Thermal Plastic Resin) will not break down when wet or damp.
- The dam blocks the epoxy from leaking or dripping down the blank when the blank is placed upright in a drying rack.

OMNI ARBOR CROSS-SECTION
